Part B for Dept.

SUBJECT.

Confirmation of Chemists of G. Wood Factory

WD 0418—GPB—22,500—29-8-36

Serial No.	
1	Letter no. 1647 dated 6th Dec: 1935 from the Dir: S.D.F. requesting sanction to the continuance of the four chemists indefinitely at the S.D.F. and requesting about the allocation of responsibilities for each of them.

There were six chemists[x] attached to the S.D.F. and one of them - Mr. Sivaha having died, there are now only 5 chemists including the Senior chemist - Mr B.S. Iyengar. While ordering the closing down of the Bangalore factory, it was ordered that only 2 chemists may be retained permanently at the factory and that the others may be employed on experimental work for a period of 6 months in the first instance. The chemists are being continued from time to time and the present period of sanction expires by 31st Dec: 1935.

2. It is now proposed to retain only one of them indefinitely and to designate Mr B. S. Iyengar as General Assistant to the Dy. Dir. and Mr. K.R. Seetharama Rao as Senior chemist. It is perhaps unintended that the present pay should remain unaffected. This is however not clear from the D.O.

[x] Messrs

Chemists & receivers of their pay of 1935.

File No. S.0177 42 — General and Revenue Secretariat

As directed on the previous page. Only five chemists attached to the Factory, one has since been transferred to the Soap Factory and the Dir. has again recommended that they may be made permanent and given the scale of pay in this office dated that they have been drawing the same pay since 1925 and that very little service has before them. The proposals are for orders:

(1) 18-11-4-26) The proposal to grant the increments involves an extra expenditure of Rs: 2357-p.m. The letter of 4-4-36 from the Dir. is for personal orders. Refer paras 12 to 16 & 22 to 24.

SBS 12/4

26) DW Secy) Ley. 14.4.26

BJJ 14/4

27) The appointments may be made permanent. The incremental scale must be fixed now. As they have not had any promotion for the last ten years, they must

2) Reference is invited to First Member's (Mr. M.N. Krishna Rao's) minute dated 24th February 1933 in S.O. file No. 50-32-1 & 2 (containing flag C.) As a result of closing down the Bangalore Factory there were stated to be 4 Supernumerary Chemists to whom the following new items of work were allotted.

(a) Supervision of distillation at Kuppam

(b) Supervision of distillation at Kanuj

(c) Use of more Pressure stills

(d) Work connected with essential oils

It is now stated that the distilling arrangement

10 Corporations agreements of the S.D.R.

File No. of 193 . General and Revenue Secretariat

at Kanauj and distillation by pressure (b and c above) have stopped and that the Factory is now working at its maximum capacity and that the work of the Chemists has increased considerably. This could be is not clear and the position requires examination and further explanation with reference to the following points:-

(1) Whether the items of work at (a) and (d) referred to above are now being attended to;

(2) Whether and if so how many of the 4 Supernumeraries have since been absorbed in sanctioned vacancies;

(3) How many of them are still supernumerary and the work entrusted to them;

(4) Whether their continuance is necessary in the interest of work;

(5) Whether their continuance as supernumararies will not suffice and why it is necessary to make the posts permanent.

(6) The sanctioned number of posts of Chemists and the need if any for increasing the number;

(7) Whether they cannot be absorbed in sanctioned vacancies in other offices and institutions, such as marketing survey officers, Chemists in the Industrial Laboratory etc.

8. As regards the grant of enhanced pay to the incumbents as proposed it may be stated that such increments on personal grounds are financially objectionable and not acceptable.

12. Confirmation of chemists of the Sandal oil factory.

SOF File No. 42 of 1935 | General and Revenue Secretariat

37) It is clear from the Director's letter that out of 4 chemists, one is doing the duties of a general Assistant to the Deputy Director and another has not got full work and is intended to do the duties of others when they go on leave. It is not clear whether the post of a general ~~ad~~ assistant to the Deputy Director is a sanctioned one. If not, the Director should submit detailed proposals pointing out the need for it. I therefore think that the services of all the four chemists cannot be regarded as necessary permanently and at least one or two posts should continue to be temporary to admit of reduction, when considered necessary.

JK 45

One post may be kept temp. as super numerary

SANDALWOOD OIL FACTORY,

Bangalore, 6th December 1935.

No. 1647.

2671

FROM

S. ABDUL WAJID, ESQ., B.A.,

DIRECTOR, SANDALWOOD OIL FACTORY IN MYSORE,

BANGALORE.

To

M. VENKATANARANAPPA ESQ., B.A.,

Secretary to the Government of Mysore,

Development Department, Bangalore.

S i r,

I have the honour to invite your kind reference to G.O. No. D.4326-7/S.O.F. 50-32-2 dated 6th March, 1933, sanctioning the continuance of the 4 Chemists at the Sandalwood Oil Factory for a period of three years commencing from 1st January, 1933, and to state that this period expires by the 1st January 1936.

Of late, very stringent tests have been prescribed before passing the oil as conforming to the standard, which requires greater care and supervision in the different stages of distillation of the oil than before. The work of the Chemists has considerably increased as also their responsibility.

S.O.F. 54-30-2 Consequent on the closing down of the Bangalore Factory, considerable retrenchment was effected in the staff. As all accounts and correspondence regarding sales and despatches of oil etc are now being done at the Mysore Office, and the attention of the Deputy Director has to be devoted in a large measure to the manufacturing side, an assistant to him is necessary to relieve him partly of the responsibility I therefore propose that Mr. B.S. Iyengar who is now the Senior Chemist may be appointed as the General Assistant to the Deputy Director to assist him in all the operations of the Factory as well as in the office. The General Assistant will also be directly in charge of the General Stores, Workshops, Boilers, and Fuel section. I note

p.t.o.

below the duties I propose to allot to the other 4 Chemists, whose services I recommend may be continued:-

(1) Mr. K.R. Srinivasa Rao, Chemist. He is the next senior officer to Mr. B.S. Iyengar. I recommend him to the post of Senior Chemist. He will be in charge of the administration of the whole Chemical Section and will be directly responsible for the purification, blending and packing of Sandalwood Oil, maintenance of records thereof and despatch of Sandalwood Oil consignments.

(2) Mr. S. Alavandar Naidu, will be in direct charge of Still-rooms, Machine room and Sandalwood Stores, supervising the distillation operations from the start to the crude oil production stage. He will also be in charge of Sandalwood consignments to New York.

(3) Mr. K. Venkatesiah will analyse final samples of Sandalwood Oil consigned from the Factory, issue certificates and engage himself in research in connection with Sandalwood Oil.

(4) Mr. M. Nagesa Rao will conduct routine analysis of day to day samples of oil to help blending and preparation of different grades of oil required to satisfy the various markets. He will in addition conduct experiments for collection of statistics with reference to yield and quality of oil from various classes of wood from all koties and maintain stocks of chemicals and chemical apparatus.

I am of opinion that the services of all the above Chemists are quite necessary for the satisfactory working of the Factory. I request that sanction of Government may kindly be obtained for the continuance of their services indefinitely.

I have the honour to be,

Sir,

Your most obedient servant,

Director.

regard to your visit to Mysore?
Confirm your visit to Mysore?
Any other information that Defence wants us to give
Their contact from [illegible] Army Authorities.
In the meanwhile I am to
report that a State visit during the
Summer vacation to the Bangalore factory
Factories before the Bangalore factory
visit, accompanied with the Parent-
Minister Secretary with Mysore Resident at
a very early date.
Perusing the examination papers
Our Hon'ble wishes on your proposals.
Glad and feel that there is not
sufficient work for all the chemists
at the Mysore Factory in charging
the chemist that is about to retire
from Karanji and that employee
may be better principally from
in the I Dept. laboratory.
I am to request you
to take necessary
action thereon
this visit.
Yours &c

6

~~30th~~ January 1936.
31st

D. 4628

Dear Sir,

With reference to your letter No.1647, dated 6th December 1935 in regard to the continuance of the Chemists at Mysore, I am directed to state that separate orders are being issued sanctioning their continuance for a period of six months.

In the meanwhile, I am to request that a statement showing the number of Chemists, Foremen and Fitters attached to the Bangalore and Mysore Factories before the Bangalore Factory was closed as compared with the present staff of the Mysore Factory may be sent at a very early date.

Pending the examination of this statement and the final orders on your proposal, Government feel that there is not sufficient work for all the Chemists at the Mysore Factory including the Chemist that is about to return from Kanauj and that one of them may be posted provisionally for work in the Industrial and Testing Laboratory. I am to request you to take immediate action if you agree with this view.

Yours sincerely,

MW.

S. Abdul Wajid, Esq., B.A.,
Director of Sandal Oil Factory in Mysore,
Bangalore.

ADDRESS FOR TELEGRAMS
SANDAL
BANGALORE
CODE USED: "BENTLEY'S"

SANDALWOOD OIL FACTORY

Bangalore, 1st February 1936.

No. 2175.
Enc.

Confidential.

Dear Mr. Venkatanaranappa,

With reference to your D.O. letter No.D.4628/S.O.F. 42-35-2 dated 31st January, 1936, suggesting that one of the Chemists from the Sandalwood Oil Factory may be posted provisionally for work in the Industrial and Testing Laboratory, I write to state that the sanctioned pay of the Chemists in the Sandalwood Oil Factory ranges from Rs 150/- to Rs 250/- per month. Even the junior most chemist has put in a service of more than 18 years and is drawing Rs 150/- per month. If any of them is posted to the Industrial and Testing Laboratory for work, I am afraid it would lead to a lot of discontent amongst the Laboratory Staff. Not only that but he would be too costly for our institution which has to be run on commercial lines and requires a number of hands on smaller pay. I would therefore suggest that one of the Chemists be posted to the Government Soap Factory and Mr. S.G. Sastry (Junior), who is a Chemist on Rs 75/- per month in the Soap Factory may be posted to the Laboratory for work under Dr. A.N. Rao either in connection with the manufacture of emulsion or for research and experimental work. Mr. Sastry (Junior) and Mr. M.N. Subba Rao the other Chemist at the Factory are both related to Mr. S.G. Sastry (Senior) and Mr. M.S. Krishna Rao, and I consider it desirable that one of them at least should be transferred from the Soap Factory. In the re-organisation proposals of the Industrial and Testing Laboratory which I shall submit, provision has been made for 4 Chemists. Mr. S.G. Sastry's (Junior) appointment will count against one of these.

I propose to post Mr. M. Nagesha Rao, Chemist, from the Sandalwood Oil Factory to Government Soap Factory and Mr. S.G. Sastry (Junior) from the Government Soap Factory to the Industrial and Testing Laboratory.

Yours sincerely,

M. Venkatanaranappa Esq., B.A.,
Secretary to the Government of
Mysore, Development Department,
Bangalore.

SECL. TO GOVT. DEVELOPMENT DEPT.
6 APR. 1936

FROM

S. ABDUL WAJID, ESQ., B.A.,

DIRECTOR, SANDALWOOD OIL FACTORY IN MYSORE,

BANGALORI

To

M. VENKATANARANAPPA ESQ., B.A.,

Secretary to Government of Mysore,

Development Department, Bangalore.

S i r,

D.No. 2671 I have the honour to invite your kind reference to G.O. No.D.4623-24/S.O.F 44-35-3 dated the 30th January 1936, sanctioning the continuance of the Chemists for a further period of 6 months commencing from January 1936, and to state that I have already placed before Government in my letter No.1647 dated 6-12-35 the circumstances necessitating their continuance on a permanent basis. One Chemist on Rs 150/- has since been transferred to Government Soap Factory, Bangalore. Consequent to the stoppage of distilling arrangements at Kanauj and distillation by pressure, the Factory is now working at its maximum capacity. The work of the Chemists has considerably increased. It is to the careful watch they maintain during the different stages of distillation that the excellence of the quality is due. I consider that there is sufficient work for these four chemists and request you kindly to obtain orders of Government for the permanent continuance of their services.

M. 25-11-9 SOFQ I beg to bring to the kind notice of Government, that of the staff borne on Establishment, only the Chemists have not been placed on time-scale pay. They have been drawing the same pay since 1925, when they were given their last promotion. All of them have put in a service of 19 years and are over 40 years of age. In view of the fact that they have not had any promotion for the last eleven years and

p.t.o.

very little service lies before them, I feel that they should be placed on a time scale pay during the remaining period of their service.' The time scale pay I have proposed for favour of kind consideration of Government is I think not excessive. I request you kindly to obtain sanction of Government to my proposals:-

	Name.	Present Pay.	Proposed Designation.	Grade Rs	Starting pay in the grade with effect from 1-7-1935.
	Messrs:-				
1	B.S. Iyengar	Rs 250/-	Genl. Asst:	300-20-400 25	Rs 320/-
2	K.R. Srinivasa Rao	Rs 180/-	Sr. Chemist.	200-10-300 2	Rs 225/-

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

Dated, Bangalore, 4th June 1936.

No. D 7404

From

The *Secretary to the Government of His Highness the Maharaja of Mysore,*
Development Department.

To

The Director,
Sandalwood Oil Factory in Mysore.

Sir,

With reference to the correspondence ending with your letter No.2791 dated 4th April 1936 recommending that the Chemists of the Sandal Oil Factory may be made permanent and placed on a time scale pay, I am directed to state as follows:-

As a result of closing down the Bangalore Factory, there were 4 supernumerary Chemists to whom the following items of work were allotted:-

(a) Supervision of distillation at Kuppam

(b) --do-- --do-- Kanauj

(c) Use of more Pressure stills

(d) Work connected with essential oils.

It is now stated that the Factory is working at its maximum capacity and that the work of the Chemists has increased considerably though as a matter of fact items (a) to (c) above have since been stopped. How this could be is not clear and the position requires re-examination and further explanation with reference to the points noted below -

(1) Whether the items of work at (a) and (d) referred to above are now being attended to;

(2) Whether and if so how many of the 4 Supernumeraries have since been absorbed in sanctioned vacancies;

(3) How many of them are still supernumerary and the work entrusted to them;

(4) Whether their continuance is necessary in the interest of work;

(5) Whether their continuance as supernumeraries will not suffice and why it is necessary to make the posts permanent;

(6). The sanctioned number of posts of Chemists and the need if any for increasing the number;

(7) If they are not required for the Factory work whether they cannot be absorbed in sanctioned vacancies in other offices and institutions, such as marketing survey officers, Chemists in the Industrial Laboratory etc.

I am to request to be favoured with a report in the matter in the light of the above remarks.

I have the honour to be,

Sir,

Your most obedient servant,

Secretary to Government,
Development Department.

S i r,

With reference to your letter No.D.7404/S.O.F. 42-35-8 dated 8th June 1936, I have the honour to forward herewith a note furnishing information regarding the points raised therein.

In recognition of the good services rendered by them, I strongly recommend their continuance permanently and request you kindly to obtain early orders of Government approving of my proposals.

I have the honour to be,

S i r,

Your most obedient servant,

Director.

MG/

N O T E.

(1) Item (a) The supervision of distillations in Kuppam was not the exclusive work of any chemist, but was carried out only in addition to his regular work of analysis and research by the chemist posted to work in the Indian Institute of Science under the then consulting chemist, Dr. Watson. For this purpose, he used to pay occasional visits to Kuppam. As soon as the services of the consulting chemist were dispensed with, the chemist who was working under him has been transferred to this Factory to attend to the work of analysis etc.

(d) The work connected with essential oils (Champaka, Vetivert, etc.) is still being carried on according as the raw materials are available in their respective seasons. I am programming some investigations to improve the existing processes. He will be required for that work.

(2) The present strength is only 4 including the Senior-Chemist.

(3) There are no supernumeraries now. One is the General Assistant to the Deputy-Director, another is in charge of the distillation, refinement, packing and stocks of sandalwood oil, the third is attending to analysis and the fourth to distillation of essential oils, manufacture of attars, etc. and will attend to the duties of others whenever they go on leave.

(4) Absolutely necessary.

(5) It will not be in the best interests of the Government to continue them as supernumeraries with an uncertain future. They are all trained chemists with vast and valuable experience in their work, gained during the last 17 years, and as such, any further continuance of their services as supernumeraries will only tend to damp their spirits and enthusiasm and will deprive the Factory of the best in them. It is high time their posts are made permanent; it is certainly unusual to keep trained chemists on a temporary

footing for 17 years.

The mere fact that the items (a) and (b) i.e., distillation in Kuppam and Kanauj on our account, have been stopped should evidently mean the imposition of additional strain on the work in this Factory, at least to the extent of the relief that was being afforded by them in the matter of output. Again pressure stills (item c) were introduced with the idea or belief of getting increased output with less number of stills and the consequent reduction in labour, supervision, etc. The stoppage of these and the reversion to the usual methods of distillation has meant additional work to the staff.

Of the six chemists that were borne on the staff of this Factory in 1932, one died in the year 1934, another was recently transferred to the Government Soap Factory, leaving only four to cope with the work of those six. Of these four, one acts as a General Assistant to the Deputy Director exercising supervision over all the sections of the Factory; hence, there are only 3 to attend to the various important items of work such as the distillations of sandalwood and essential oils, their refinement, packing, analysis, etc., and the manufacture and sales of attars.

It may also be pointed out that the cost of production of oil has now been brought below Rs 2/- per lb of oil produced and this is due to the vigilent, hard and honest work of these chemists.

Director,
Sandalwood Oil Factory.

Mr. S.G. Sastry, B.A.,
M.Sc., F.C.S.,
Ag. Director.

DEVELOPMENT BRANCH

Dear Mr. Venkatanaranappa,

In continuation of this office letter No. 3379 dated 26th June 1936, I write to state that in accordance with Government Order No.D.4628-24/S.O.F. 42-35-3 dated 30th January 1936, the term of the offices of the Chemists expired on the 1st January July 1936. Pending orders of Government on the general proposals, I request you kindly to obtain approval of Government for payment of the salaries of the Chemists for the month of July 1936.

Yours sincerely
Sastry

S i r,

I have the honour to invite your kind reference to my letter No.1647 dated 6th December 1935, recommending the continuance of the services of all the Chemists in our Factory at Mysore. The term of their offices expired on the 1st January 1936. I have permitted the Deputy-Director to draw their salaries for January 1936 in anticipation of Government sanction. This may kindly be approved.

I have the honour to be,

S i r,

Your most obedient servant,

Abdul Wajid.

Director.

To

M. VENKATANARANAPPA ESQ.; B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

S i r,

I have the honour to invite your kind reference to G.O. No.D.835-6/S.O.F. 42-35-10 dated the 27th July 1936, requesting me to report the names of Chemists to be treated as permanent and as supernumerary.

Mr. B.S. Iyengar is the senior most amongst the Chemists and he will be one of the permanent Chemists.

Of the remaining three, it is difficult to select two to be permanent and one to be supernumerary. They all entered service in Sandal Oil Factory on the same day, namely on 19.7.1917, and all three are doing equally important work. Therefore, I request that orders may kindly be passed treating all these three also as permanent.

I have the honour to be,

S i r,

Your most obedient servant,

Director
